The [Higher Education Standards Framework \(Threshold Standards\) 2015](#) Standard 1.5 Qualifications and Certification establishes the specifications for the production and issuance of official and certified academic documents, including:

1.5.1 Qualifications, other than higher doctoral or honorary qualifications, are awarded only if a course of study leads to the award of that qualification and all of the requirements of the course of study have been fulfilled.

1.5.3 When an Australian Higher Education Qualification is offered, the course of study leading to the qualification is either self-accredited under authority to self-accredit or accredited by TEQSA and the learning outcomes for the qualification are consistent with the level classification for that qualification in the Australian Qualifications Framework.

1.5.5 All certification documentation issued by the higher education provider is:

- a. unambiguously issued by the registered higher education provider*
- b. readily distinguishable from other certification documents issued by the higher education provider*
- c. protected against fraudulent issue*

- d. traceable and authenticable*
- e. designed to prevent unauthorised reproduction, and*
- f. replaceable by the higher education provider through an authorised and verifiable process.*

1.5.6 Testamurs state correctly, in addition to the requirements for all certification documentation:

- a. the full title of the qualification awarded, including the field or discipline of study*
- b. any subsidiary component of the qualification (such as integrated honours, an area of specialisation or a major study), and*
- c. if any parts of the course of study or assessment leading to the qualification were conducted in a language other than English, except for the use of another language to develop proficiency in that language.*

1.5.7 Records of results state correctly, in addition to the requirements for all certification documentation:

- a. the full name of all courses and units of study undertaken and when they were undertaken and completed*
- b. credit granted through recognition of prior learning*
- c. the weighting of units within courses of study*
- d. the grades and/or marks awarded for each unit of study undertaken and, if applicable, for the course overall*
- e. where grades are issued, an explanation of the grading system used*
- f. where a course of study includes a significant particular focus of study such as honours, an area of specialisation or a major study, a definition of that component of significant focus, and*
- g. any parts of a course or units of study or assessment that were conducted in a language other than English, except for the use of another language to develop proficiency in that language.*

1.5.10 Students who complete one or more units of study that do not lead to the award of a qualification have access to an authorised record of results for the units undertaken.

The [AQF Qualifications Issuance Policy](#) ensures that graduates receive official and certified documents to which they are entitled, including:

2.1.1 All graduates who have completed a program of learning that leads to the award of an AQF qualification are entitled to receive the following certification documentation on award of the qualification:

- a testamur; and*
- a record of results.*

A graduation statement will also be issued as its usage is adopted across the education and training sectors.

2.1.2 Students who complete part of the requirements of an AQF qualification in which they are enrolled are entitled to receive a record of results.

2.1.3 Graduates are entitled to retain testamurs and records of results once they have been issued unless the:

- AQF qualification builds on a lower level qualification in the same discipline at the same issuing
- organisation and it has a policy regarding the surrender of certification documentation; or
