Driving Excellence in Management Education and Performance

KEY INDUSTRIES:

CONSTRUCTION & INFRASTRUCTURE
MANUFACTURING & PRODUCTION
MINING, ENERGY & PROCESSING
IT & SERVICES
Short courses or workshops

The courses are designed as self-contained learning and development modules, each focused on fostering fresh insights, perspectives and values. You can participate in a workshop via the Internet if you cannot attend in person.

April 2011 Semester

The next semester provides an opportunity to sample our short courses and workshops in a range of areas. All you need is a laptop or PC with audio video conferencing tools as well as access to the Internet. We will look after the rest!

Alternatively apply for admission into one of our formal degree courses: Master of Business and Project Management, Graduate Diploma in PM and Graduate Certificate in PM.

Continuous Professional Development

Completion of a 4-day and a 2-day workshop carries respectively 30 and 15 PDUs from PMI and 5 CPDs from AIPM as well as an equivalent CPDs from Engineers Australia or other professional bodies.

Professional members

Special rates are available for current members of PMI, AIPM, AIOB, AIA, AIQS, CIPS and EA as well as for multiple bookings from the same organisation. The workshops listed above can also be tailored to meet specific requirements subject to a minimum number of participants.
Asia Pacific International College

Asia Pacific International College merges academic rigour and industry pragmatism in its programs. The College combines professional development of individuals with performance enhancement of employer organisations through tailored competency-based schemes that guarantee performance improvements.

At APIC, we focus on:

- Development of wisdom to cope with a world characterised by complexity, uncertainty and change
- Customisation of education and training to meet individual and organisational needs
- Promotion of clinical learning and practice to engender professionalism and ethical behaviour
- Integration of learning and practice
- Promotion / enhancement of a culture of creativity and innovation
- Provision of meaningful graduate education and professional development globally, particularly in emerging economies
- Effective partnership with business, government agencies, communities and society at large for advancement of knowledge and its beneficial application to the relevant spheres of human activity

Why choose our programs

- **Flexibility** - study at your pace and in your own comfort (through one-on-one mentoring)
- **Customised** Learning and Development Plan to fit individual needs
- **Advanced tools** and systems supporting individual learning and development in a dynamic fashion
- Use of **real life projects and organisations** as the site of learning
- **Linking professionals** of diverse background and experience systematically
- **Stimulating environment** for peer group support, exchange of expertise and benchmarking to calibrate and test professional competencies in different contexts
- **Autonomy** to facilitate intellectual enrichment and personal mastery
- **Alignment** of individual learning and development with organisational goals and strategies

“We are what we repeatedly do. Excellence, therefore, is not an act but a habit.” - Aristotle
What students said …

“The management program at Asia Pacific International College has helped me to solve problems regarding the management of contracts and large complex projects.”

Project Manager
Power Plant Division

“Although I had lots of experience with managerial aspects, project contexts and project-based organisations, I decided to develop my competencies through Asia Pacific International College’s graduate program because it is competency-based, and focuses on project and program management rather than general management.”

Quality Assurance and Systems Manager

“The improvement of my project management skills made through the graduate program is outstanding. It has helped me to sharpen my skills and insights. It has also opened up new opportunities in the field of project management for me.”

Senior Technical Inspection Engineer

“A distinct advantage of the graduate program offered by Asia Pacific International College is its approach that involves you in real life projects. One has to assess the project, find its weaknesses and propose the required solutions to improve the project. In other words, a hands-on experience in managing projects.”

Design & Contracts Manager

---
